New York City N.Y.

Dear Mr Elias:

I am writing to enclose the check due for final payment for services rendered The Negro National Baseball League for the year 1946.

I am sure it is a source of real satisfaction to all the clubs to have this service. They are still not perfect, I am sure the mistakes are due to the team owners, and not your office. One glaring mistake is the information The Eagles were only shut out once, when they were shut out twice. It is easy for me to see this error, because my team was involved. I imagine there are more like this. I feel that there are times your office does not receive the score sheets.

One of the things that may have helped to upset the schedule this year was the fact that so many changes were made after the season started. I hope in another year this practice will not take place. I feel that our baseball is improving all the time, and I am sure another year will see even more improvements.

I wish very much we could have the records of a pitcher's earned run average. Will you please tell me if we can have this information next year. If there is any thing we have to do let me know. I think this information is very necessary if you want to be fair to the pitcher.

Thanks for your cooperation. Hope to have continued service for 1947.

Very Truly Yours
